CLEARWATER

Clearwater is a city of stately churches, majestic public buildings, dignified banks, palatial homes, attractive stores, artistic theatres and excellent schools but more than this it is a city of surpassing beauty, a land of enchantment, and one of the finest tourist resorts in America. It is visited by thousands of the best people from every state and Canada. It has constant sunshine from November until July. It is the county seat, eighteen miles from St. Petersburg, and thirty miles from Tampa. It is 400 miles south of Southern California; 640 miles south of Naples, Italy; is in nearly the same latitude as Cairo, Egypt, and yet it is only 48 hours from New York or Chicago. The climate is invigorating rather than enervating.

Clearwater's property values and population have doubled in the past five years, and will double again in the next five years, but its greatest asset is its remarkable climate.

Located on the Gulf of Mexico, it has the highest elevation of any coastal city in Florida. The balmy breezes from the Gulf, the ozone from thousands of pine trees, myriads of orange groves and aromatic shrubs create a clear sweet scented atmosphere of wonderful curative powers, delightful to enjoy.

The healing waters of the far-famed Santo Espiritu Springs accomplish miracles for

tourists. This water is served free to guests. Persons suffering from asthma, rheumatism, high blood pressure, heart, throat or nasal troubles experience prompt relief.

Clearwater's attractions include delightful surf bathing, boating, and fishing on the lakes, Bay and Gulf where there is an abundance of mullet, kingfish and tarpon, also exciting yacht and speed boat races. Near the Gray Moss Inn are three superb golf courses, where National Tournaments are held, two courses built by Donald Ross and one by Herbert Strong, also a beautiful stucco club house open to tourists and supplied with lockers and showers, also five other golf courses a little further away.

A block away from the Gray Moss Inn is one of the finest tropical parks in America. In this park are roque courts, bowling on the green, quoits, and a pavilion for chess, checkers and other games. There is a superb Tourist club house which is open day and evening. There are entertainments and band concerts and a powerful radio which is reached by all the larger broadcasting stations.

Our latest attraction is a new \$25,000 baseball park, for the Brooklyn's (major league) practice and match games. After these the home team plays.

Clearwater is easily reached from all parts of the country. Fast through trains arrive daily from New York and the West.

GRAY MOSS INN

The Gray Moss Inn is one of the largest and finest hotel estates in the South. The hotel park adjoining is a dreamland of exotic splendor. Under its giant oaks and waving palms are crimson poinsettia, purple bougainvillea, orange bignonia, royal palms, poinciana, yellow alamanda and sweet scented magnolia and jasmine. This floral paradise is the home of mocking birds, blue birds, cardinals and other birds of beautiful plumage and song.

In the fruitland adjoining are orange, grapefruit, guava, papaya, kumquat, tangerine, peach, cherry, avocado and banana trees, which when in blossom fill the air with perfume.

In our Playstead the guests play roque, putting on the green, clock golf, hotel golf, shuffle board and other games or linger in the rustic house under the bamboo trees, walk in the rose or sunken gardens, pick fruit in our larger orange grove, or listen to the music of our powerful radio.

In this beautiful tropical setting is the Gray Moss Inn with its broad and shady porches and its circular palm garden with its attractive pagoda of rare song birds; aquarium and fernery. We have musicales, dances, social functions, receptions and bridge parties. The select personnel of our guests will appeal to you.

The appointments of the Inn are modern throughout; steam heated; with electric elevator and public and private electric light service. Its rooms are all outside rooms, facing the streets and park. Every room has a private bath or is in suite with one. All double rooms have comfortable twin beds. The vacuum system of cleaning is used. The service is cheerful, courteous and prompt.

The cuisine, supervised by a famous Northern chef, is unsurpassed in its originality, variety and appeal, with milk from our dairy, eggs from our hennery and vegetables from our garden. Fish is served the day it is caught in Clearwater Bay. We serve nothing but the choicest cuts of western meats. Only distilled water is used on the tables. Fresh flowers daily adorn the dining room. The kitchen equipment is thoroughly modern.

The Inn provides motor cars and motor boats at a nominal charge. Nearby are hunting, trap shooting, horseback riding and swimming pools.

There is not a hotel in the South that offers more in climate, cuisine, service, recreation or high social or musical atmosphere than the Gray Moss Inn.

The Inn is open every day in the year, the main dining room being open from November 15th to May 15th. Rates American Plan \$5.00 a day and up, \$35.00 to \$60.00 a week.
